

## ENMA 278: Lean Manufacturing

# Portfolio Reflection

---

One of your course deliverables is a [portfolio reflection](#). Here, we will form groups of ~3 people to discuss our portfolio reflections. After discussions, your instructor will request that each group attempt to identify a common theme among the group members for each item in the portfolio reflection. Each team will then be asked to provide a 1-3 sentence summary of common themes for presentation to the group.
